ORDER

At Wilmington, this 20th day of October, 2009, after having considered the parties' joint claim construction chart and Jingle Networks, Inc.'s ("Jingle") motion to file a brief in excess of the prescribed page limits;

IT IS HEREBY ORDERED that the Joint Claim Construction Chart (D.I. 33 Ex. A) is STRICKEN from the record. The parties shall file an amended joint claim construction chart within five (5) days of the date of this Order. The amended joint claim construction chart shall be limited to ten (10) disputed terms per patent-in-suit.¹

IT IS FURTHER ORDERED that Jingle's motion to file a brief in excess of the page limits prescribed in the Scheduling Order (D.I. 34) is DENIED.

 CHIEF UNITED STATES DISTRICT JUDGE

¹ The parties have submitted for construction 19 terms from U.S. Patent No. 7,023,969. Although disinclined to do so in the past, the court – regrettably – will impose a limit of 10 disputed terms per patent for claim construction in this and all future patent actions.
